## 1 NPB Statistics

### 1.1 Utils

#### 1.1.1 Imports

```
[1]: import sys
import argparse
import math
import numpy as np
from scipy.stats import t
import scipy.stats as stats
import csv
import matplotlib.pyplot as plt
import matplotlib.ticker as ticker
```

```
[2]: from google.colab import drive
drive.mount('/content/drive')
```

Mounted at /content/drive

#### 1.1.2 Global variables

```
